

Designing and building your home...

John Hill Construction
is a custom home builder.

We specialize in all phases of new residential construction and remodeling. Our particular focus is building custom homes on scattered lots as well as orchestrating major additions.

No matter what the project size, our 20 plus years of experience along with our ability to listen will make your dreams into realities.

At John Hill Construction, we work with you to develop solutions that incorporate your ideas and stay within your budget. While you make the final decisions, we act as a guide to help you through the process of building your home for your lifestyle.
